

Internet and Operating System Compatibility

Some systems work better than others with PeopleSoft, the application in which Team Georgia Marketplace resides. To check the version of your browser, access the internet, then click HELP, and you should be able to find out your browser level. The operating system that you are using displays as you log in.

The text below is excerpted from PeopleSoft.

Based on internal testing, Internet Explorer is the clear leader in performance and user interface quality. For the functional user, where performance and reliability are key, *Internet Explorer 6 is the recommended web browser running on Windows 2000 or XP.* This combination provides what we feel is an optimal experience. The following are the combinations of web browser and client operating systems PeopleSoft is certifying for *all* PeopleSoft 8 applications on PeopleTools 8.4:

On UNIX and Linux and Mac OS X, Netscape 7 is the preferred browser.

- Internet Explorer 6 on Windows 2000, Windows XP and Windows Server 2003.
- Internet Explorer 7 on Windows XP and Windows Server 2003.
- Netscape 7.x on Windows 2000, Windows XP, and Windows Server 2003, UNIX, Linux, and Mac OS 9, X.
- Netscape 8.1 on Windows 2000, Windows XP, and Window Server 2003.
- Mozilla 1.7 on Windows, UNIX, Linux, and Mac OS X.
- Firefox 2.0 on Windows 2000, Windows XP, Windows Server 2003, UNIX, Linux, and Mac OS X.
- Apple Safari 2.0.4 on Mac OS X.

Note. For bi-directional display such as with Arabic or Hebrew, the supported browsers are Internet Explorer 6, Netscape 7 and Mozilla 1.7.
